

Your First Source for
Energy Savings

PARTICIPATING HVAC CONTRACTOR INCENTIVES PROGRAM

In order to recognize outstanding participation, FirstEnergy's Pennsylvania utilities are offering **valuable rewards** to full status **participating contractors** who achieve monthly production goals in the HVAC Equipment Program*. These rewards will be calculated based on monthly production performance results and distributed on a quarterly basis.

The monthly milestones for the HVAC Programs are aggressive but attainable, and we hope that you use these rewards as an additional incentive to drive monthly program production.

Remember, the more customers you help participate, the bigger your rewards!

Qualifying HVAC Equipment Installs	
Furnace Fan Motor	Installation of a new, or replacement of an existing, furnace or air handler fan motor with high-efficiency fan motor
Central Air Conditioners	SEER ≥ 16 SEER ≥ 18
Air Source Heat Pumps	SEER ≥ 16 HSPF ≥ 9 SEER ≥ 18 HSPF ≥ 10
Ductless Mini-Split Heat Pumps	SEER ≥ 18 HSPF ≥ 10
Geothermal Heat Pumps	Must be ENERGY STAR-certified
Packaged Terminal Air Conditioner	EER ≥ 11
Packaged Terminal Heat Pump	EER ≥ 11, COP ≥ 3.1

Making A Difference

The energy savings you help to generate by installing high efficiency equipment can save money for your customers and helps to protect the electric grid. To help you market your energy-saving solutions, check out the marketing materials available at energysavePA-home.com/participating-contractors (Username: contractor Password: HON500)

* Program rewards will be distributed quarterly and are based on completed HVAC rebates for qualifying equipment as reported in Honeywell's database on a monthly basis. Programmable thermostats installations and HVAC tune-ups do not qualify towards contractor incentive goals. This is a limited time program that will end once we have reached the reward maximum. We reserve the right to modify or terminate the program for any reason, without notice.
