

## Solar Thermal Water Heater Rebate Application

The Solar Thermal Program provides rebates to Pennsylvania residential customers of Met-Ed, Penelec, Penn Power and West Penn Power for the installation of high-efficiency solar thermal water heaters. This equipment must be installed by a participating contractor and must meet all program requirements.

**Please complete this application and mail it to the address provided below along with:**

- 1) A sales receipt indicating “paid in full” or zero balance from a participating contractor (must be dated between June 1, 2013, and May 31, 2016), and
- 2) A copy of the Solar Rating and Certification Corporation (SRCC) certificate indicating model number and OG-100 certification

#### General Terms and Conditions

1. Products and services must be purchased and installed between June 1, 2013, and May 31, 2016.
2. Rebate application must be submitted within 180 days of installation and be postmarked by June 7, 2016.
3. Work must be completed by a participating contractor who has been trained and certified by the manufacturer and who has installed a minimum of three solar thermal water heaters.
4. Applicant must be a Pennsylvania residential customer of Met-Ed, Penelec, Penn Power or West Penn Power, FirstEnergy's Pennsylvania utilities.
5. Participating contractors are not employees, agents or contractors of FirstEnergy's Pennsylvania utilities.
6. It is the responsibility of the customer to assure that all requirements for the rebate are met. Failure to provide any of the required information will prevent processing of your application.
7. Rebate payments are based on the equipment purchase date. Customers must abide by the rules and rebate levels in effect on the date of purchase.
8. Purchase must be of a high-efficiency solar thermal water heater as defined in the table called Solar Thermal Energy Efficiency Systems.
9. FirstEnergy's Pennsylvania utilities and/or their designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements. Such reviews will be made at a time convenient to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the rebate.
10. Program procedures, requirements and rebate levels are subject to change or cancellation without notice and are subject to available program funds.
11. Payment will be issued to the account holder and mailing address on record with the utility.
12. Please allow up to 90 days from the date all required information is received to process your rebate.
13. Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
14. FirstEnergy's Pennsylvania utilities and Honeywell International, Inc., their parents, subsidiaries, employees, affiliates and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of the participating contractor.
15. The customer hereby agrees to indemnify, defend and hold harmless FirstEnergy's Pennsylvania utilities, their parents, subsidiaries, employees, affiliates and agents from any and all liability associated with this project.
16. I understand that I may be contacted by FirstEnergy's Pennsylvania utilities, their parents, subsidiaries, employees, affiliates and agents via survey or questionnaire to provide feedback on my satisfaction with the program.
17. By participating in this program, Customer agrees to allow the local utility (Metropolitan Edison Company, Pennsylvania Electric Company, Pennsylvania Power Company or West Penn Power Company) to take ownership of the Energy Efficiency resource credits associated with the measures generated through this program. Your local utility may at its sole discretion then aggregate your credits with other similarly situated customers and bid the credits into the PJM market through an auction. Any proceeds from any such bids accepted by PJM will be used to offset the costs charged to the utility's customers for compliance with state mandated energy efficiency and/or peak demand requirements.
